

why not have your cake...and eat it?

# Fused Webcalls Converged Solutions

## Webcalls Office – On Site IP PBX Gateway

All companies can take advantage of the benefits of VoIP with minimum disruption to their day-to-day service or loss of existing PBX functionality with Fused Webcalls IP Gateway. All the benefits of an IP based telephony system with a seamless transition.

### maximise your existing telephony investment

- Use legacy equipment so protecting any existing investment.
- Keep existing telephone number so no need for costly marketing materials changes
- Low cost outbound calls and no minimum call charge plus FREE on-net calling
- Fully resilient
- Invisible to users – no re-training or down time issues
- Ideal solution for rapidly expanding companies who do not want to invest in further PSTN lines or have already heavily invested in their PBX infrastructure
- An excellent way to exploit the IP advantage for those companies who are not comfortable with a hosted model
- Maximise your existing internet connection
- Low administrative overheads
